What you need to know

Down insulation

Down is not the same

It has a completely different structure.

Down is the layer of “feathers” that are closest to the skin, covering a very small part of the bird, growing as an underlayer and protected by a layer of feathers.

*we use **90%** down*

*we use **10%** feather*

No live

DOWN AND

S

ve plucking

FEATHERS ARE NEVER
D FROM LIVE BIRDS

N LIVE-PLUCKED Guarantee
from our down supplier.

It's not the amount - it's the quality

Fill Power is simply a measurement of loft, measuring the amount of air trapped in cubic inches per 30 grams of down.

Fill power does not refer to the amount of down used, but to the quality of the down. The higher the number, the better the down and the more loft and warmth it will provide.

What you need to know **Recycled polyester**

Recycled polyester

Developing and producing within the textile industry, as well as in many other industries, has an impact on our environment.

At Nimbus, we are continually working towards an enduring sustainable strategy, to minimize the negative consequences of our activities.

We are constantly striving at developing long-lasting products both in regards to quality as well as durability, while at the same time sourcing materials and production methods that reduce our environmental footprints.

As an important part of this strategy, we are in the process of developing our current collection to consist of a wider range of products produced from recycled polyester.

Outerwear from plastic bottles

ABINGTON AND NORTHDALÉ ARE OUR FIRST TWO
STYLES MADE FROM RECYCLED PLASTIC BOTTLES

In 2021, our commitment to creating sustainable outerwear reached next level within sustainable fashion when introducing our Abington jacket, a business jacket in 100% recycled polyester twill with a 100% Sorona® Aura padding.

This autumn we are launching Northdale, which is also made in 100% Recycled polyester twill, and with a wind- and water repellency finish; Bionic Finish® ECO.

We are actively working to convert the rest of our outerwear collection to recycled material.

Abington *men*

Abington is a modern windproof and water repellent business jacket in 100% recycled Polyester Twill.

With equally protective and sophisticated details, such as a detachable gilet-looking wind placket and a 100% Sorona® Aura padding, this sustainable piece of outerwear will keep you warm and stylish all season.

SUSTAINABLE ELEGANCE

Northdale *men*

Northdale is our luxury winter jacket with several details that take the jacket in a more urban business direction, still with an elegantly refined design that characterizes a Nimbus product.

The Northdale winter jacket is mainly crafted with sustainability in mind as both the shell fabric and the lovely warm Sugeno® padding are made from recycled polyester.

The technical fabric with taped seams makes the jacket perfect for staying protected through the cold and windy winter months.

What you need to know Environmentally friendly

Sugenro[®]

Sugenro[®] is a recycled thermal insulation. The approved Sugenro[®] fiber is made from recycled polyester and gives a padding which guarantees warmth and breathability, while being environmentally friendly.

MADE WITH
SUGENRO[®]
INSULATION

Sorona[®] aura fiber

AN ECO-EFFICIENT PERFORMANCE

Sorona[®] Aura is partially plant-based and is fully recyclable in any normal polyester recycling stream. It is a top-of-the-line material, which offers excellent breathability and warmth features with superior durability. The main consumer benefits are seen in outdoor garments as Sorona based fabrics maintain their shape, stretch, recovery and colour fastness.

Bionic-finish® Eco impregnation

BIONIC-FINISH®ECO is an ecological water-repellent impregnation that we at Nimbus Nordic A/S now are using on all outerwear clothing.

BIONIC-FINISH®ECO offers a variety of consumer-friendly features such as rejecting water and aqueous soiling substances, being washable and suitable for all fiber types. It has the advantage of not having any negative effect on breathability, no fluorinated compounds and being formaldehyde free.
